

# What If...

Pollution is happening  
From even me and you  
Polluting earth and water  
And the sky so blue.

But Whatif...

We saved the earth

We can help our planet  
the sky and ocean too  
We can HELP save the beauty  
In little things we do

So spread the word!

We have news to share!  
We can help save the earth  
Let everyone be aware!
