

The World We Live In

What if we didn't pollute our waters
What if we didn't kill our fish
What if we didn't ruin our oceans
What would they look like?

What if we didn't litter our streets
What if we didn't kill our wildlife and plants
What if we didn't ruin our land
What would the world look like?

What if the world wasn't scarred
What if the world was perfect
What if the world wasn't like this
What would the world be like?
